

Mobile Phone Policy for School Students

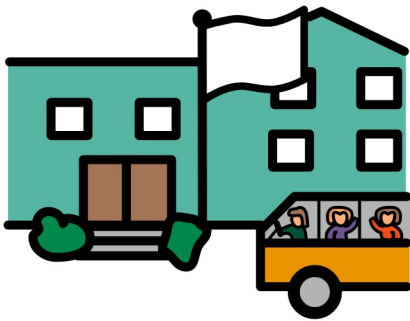

The Department of Education (DfE) has made some rules for mobile phones and smart technology devices in schools.

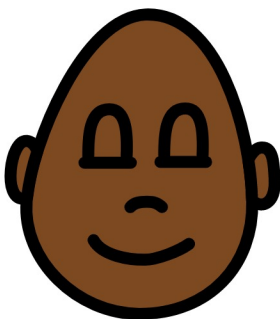

The government website says that schools should be mobile phone free.

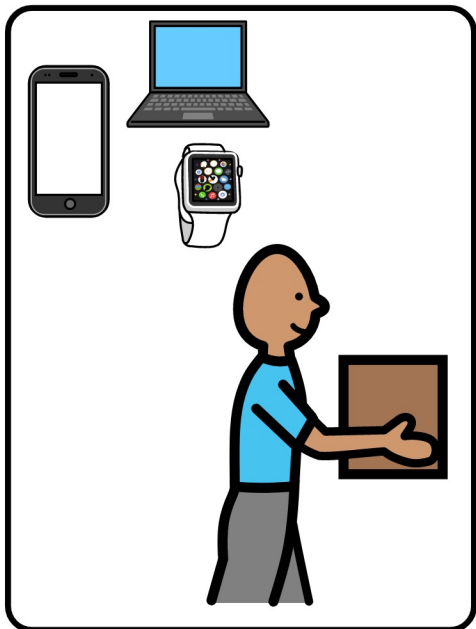

No phones or smart devices can be used by school students during the school day.

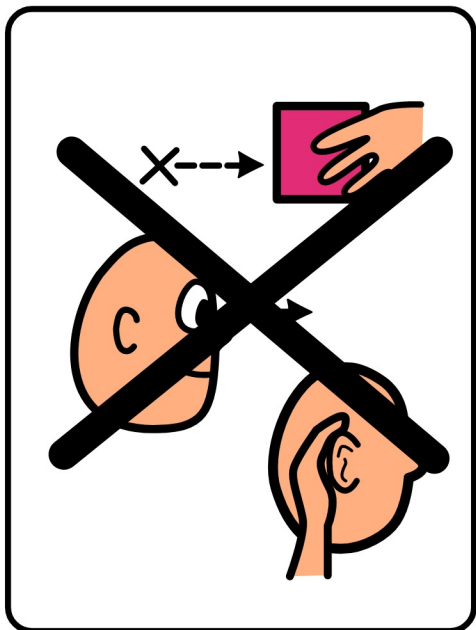

The school days means during lessons, breaktime, lunchtime and between classes.

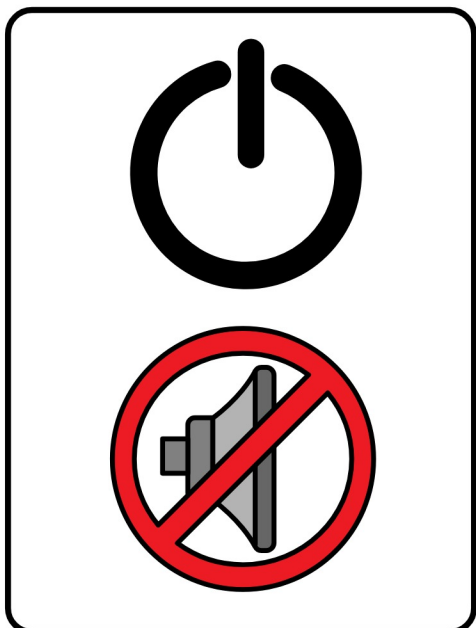

These rules will help to keep our school safe and ready for learning.

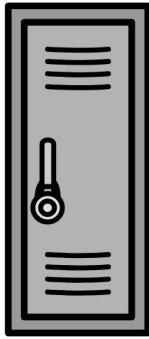

Phones and smart devices
can be brought to the
school site.

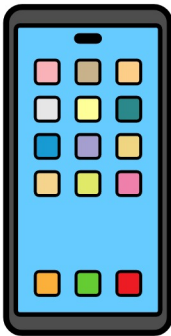

Phones should not be
used, seen or heard during
the school day.

Phones must be kept off
or on silent.

Phones must be kept in a bag or stored safely during the school day.

Phones can be collected and used at the end of the school day.

There are special reasons when a student may need their device. For example, for communication devices, for medical needs and for safe guarding or family reasons.

Students who are allowed to keep their device should only use it for the agreed reasons.
