

# Mobile Phone Policy for Sixth Form and College Students

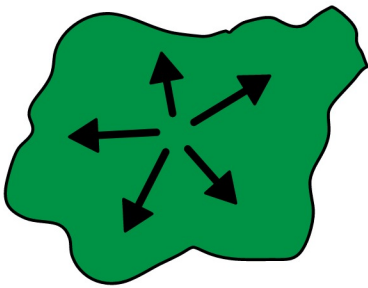

The Department of Education (DfE) has made some rules for mobile phones and smart technology devices in schools.

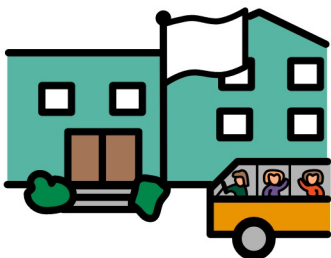

The government website says that schools should be mobile phone free.

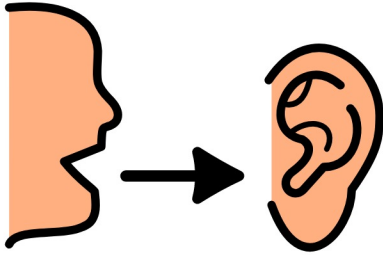

Sixth Form and College students can still use their mobile phones in certain areas.

Mobile phones can be used in shared areas, for example the Piazza.

Mobile phones should not be used, seen or heard around school students in the shared areas.

From 9am-4pm, mobile phones should not be seen in some areas. If a phone is seen in these areas, staff will speak to the person using it.
