Features and Benefits

You can enable restrictions to stop your children from using specific features and applications on an iPhone, including blocking access to iTunes, restricting explicit content and in-app purchasing. You can also limit access to the camera and sharing of photos.

What specific content can I restrict?

Inappropriate content

Social networking

Browser access

Apps access

In-App purchasing

Social networking

Sharing location

Sharing data

Media streaming

Online Gaming

What do I need?

An iPhone handset and account

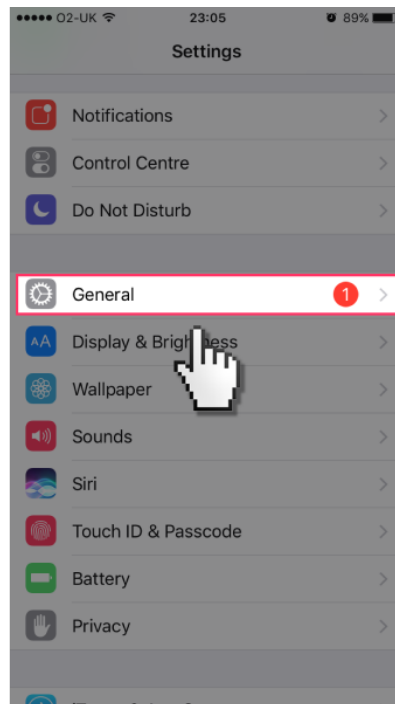

Apple iPhone

Step by step guide

1

Open the settings application on the iPhone and tap the "General" section.

Step by step guide

6

Scroll down on the “Restrictions” page to see a full list of the features you can set restrictions on. You can turn off functions such as the Camera, Facetime, set age restrictions on content that can be viewed or apps installed plus turn off the ability to access photos for already installed apps.
