# PATHWAYS FOR ADULTS

If you're looking for support that is built around your lifestyle and routines, we can create a support package that suits you.

## Pathways is here for you

We support young people and adults, from the age of 18, with disabilities, including physical and complex health needs to live safely and comfortably in their own home.

If you're looking for support that is built around your lifestyle and routines, we can create a support package that suits you.

We can work with you to support your interests and aspirations, so everything is on the table - making the pub quiz on a Monday night, your workout sessions at the gym - we've got it covered!

We will provide a flexible community support service whenever and wherever needed. This could include:

**A few hours a day**

**All day**

**Weekends**

**Evenings**

We can also provide round-the-clock care, which even includes support on your holidays. If you like outings, we can drive your own vehicle (subject to insurance).

Whatever you need, Pathways can develop a package for you.

## Making this about you

We acknowledge that everybody needs something a little bit different, so we'd take the time to sit down with you to develop the best possible support package. We can talk about:

### Communication

Particular needs and how you prefer these to be met

Your likes/dislikes

Things that are important to you

What's working well for you

Your hobbies and interests

Goals and aspirations

## Our vision...

is to provide a stimulating and caring service where each individual is involved in decisions and choices relating to their support.

## We'll make a great team!

We can provide highly specialist care. Our team are subject to robust training programmes, including clinical training and working within our competency framework which ensures each individuals needs are met, including:

Enterel feeding e.g. PEG/JEJ

Epilepsy & emergency medication

Ventilation

Suction

Oxygen

Medication
