Registered in England No. 04466362
Charity No. 1092857

Who we are

Treloar's is a charity that provides education, nursing, personal care, therapy, support and guidance so that disabled people can achieve and work towards a future that is as independent as possible.

We offer education at our school and college for students aged 4-25 with physical disabilities and associated learning disabilities and/or learning difficulties. Many of our students also have health conditions requiring care, communication needs and sensory impairments. We provide a highly specialist environment where learning, nursing, therapies, care and lifeskills development are delivered together in an integrated programme.

We also deliver support to disabled people once they have left our education provision, including supported accommodation. We are planning to expand this and are looking to build partnerships and projects to add to our expertise and have impact on a wider scale.

Strategic objectives

2022-2027

1. **Further our excellence** as a school and college for physically disabled young people

This is the foundation of our work so the core of our strategy is to maintain our educational and care excellence and remain at the very cutting edge of specialist provision for disabled young people with complex support needs.

2. **Maintain our specialism** in supporting children and young people with higher levels of need in education

We are continually engaged in a programme of action to track and respond to the changing needs of our students, to be aware of changing guidance, research and sector developments, to maintain and improve our facilities, and to support and invest in our staff.

3. **Contribute on a wider scale** to the education and support of physically disabled young people

We are aiming to be much more outward-looking, sharing our expertise as partners within the special education system and also using this expertise to inform government policy and public attitudes, being led on this by the voice of disabled people as the true experts.

4. **Develop future living options**

We will expand our provision of practical support, living accommodation and care for disabled adults living in the community. This is an exciting area of growth for Treloar's, and one of the most urgent pronounced areas of unmet need for disabled people leaving full-time education.

How you can help

1. Stay in touch

Join our mailing list so we can update you with news about our work, our fundraising activities, our events and about how your donations are helping students.

Scan to sign up to our mailing list.

Please follow our social media accounts, engage with us and share our updates with your own networks.

2. Make a gift

Whether it is a onetime gift or a monthly donation, your support can ensure young disabled people receive the best level of support and achieve their goals.

Scan to donate.

3. Introduce us to individuals or companies that might be interested in supporting our work

We can host campus visits and tours with guests to help further expand the community of people and organisations that support Treloar's.
