

# TRELOAR'S COLLEGE STUDENT CHARTER

We know we have the right:

to have good relationships with others, be treated well and not hurt by others

to be able to work and have experience in different areas of work

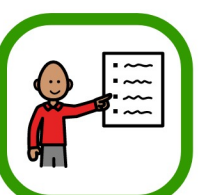

to have care that meets our needs

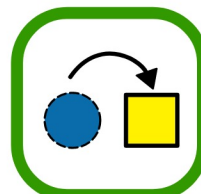

to be respected for who we are as individuals

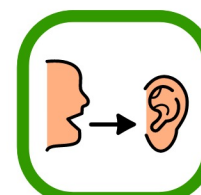

to learn and be treated in a way that works for us individually

to have fair rules that everyone sticks to

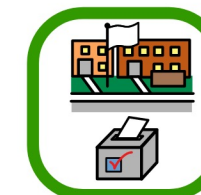

to have help to plan for our futures, education and life

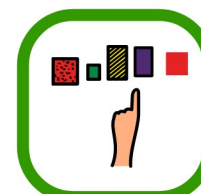

to communicate in our own way and for people to hear what we say

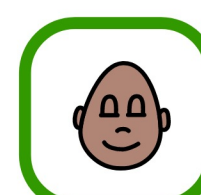

to be involved in the Treloar's and wider community

to be involved in decisions relating to college life

to make our own choices with the right information and support

to be safe, comfortable and happy and have equipment that helps us to be as independent as possible
