

TRELOAR'S SCHOOL STUDENT CHARTER

We know we have the right:

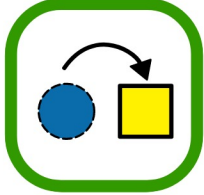

to have good relationships with others, be treated well and not hurt by others

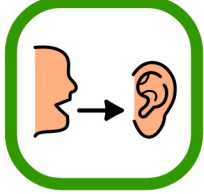

to make our own choices with the right information and support

to have care that meets our needs

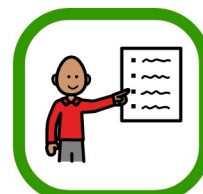

to have help to plan for our futures, education and life

to communicate in our own way and for people to hear what we say

to be respected for who we are as individuals

to have fair rules that everyone sticks to

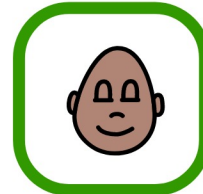

to learn and be treated in a way that works for us individually

to be involved in decisions relating to school life

to have our achievements identified and celebrated in a way that us and our families recognise

to be safe, comfortable and happy and have equipment that helps us to be as independent as possible

to be able to make friends and socialise with them
